

BOYS & GIRLS CLUB OF BURLINGTON

Teen Employment 2011

The **Teen Employment** program was designed to increase the ability of our kids to understand career options, explore skills and interests, and to prepare them for their first job. This program is a six week course covering topics such as interview skills, basic workplace rules, and understanding money, paychecks, and savings. Through this program kids also get a hands-on experience. During the course there is a trip to the Community College of Vermont as well as local business representatives who are brought in to talk with the kids about their organization and expose them to different career paths.

The **Teen Employment** program reaches out to our youth and teaches them the skills necessary to succeed in today's employment landscape.
